TRUTH IN SAVINGS DISCLOSURES

Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-in-Savings Disclosure are share accounts.

- 1. Rate Information.** The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For all Dividend-bearing accounts besides Money Market Accounts, the Dividend Rate and the Annual Percentage Yield may change monthly as determined by the Credit Union. For Money Market accounts, the Dividend Rate and Annual Percentage Yield may change at any time as determined by the Credit Union. The Dividend Rates and Annual Percentage Yields are the prospective rates and yields that the Credit Union anticipates paying for the applicable dividend period. The Dividend Rate and Annual Percentage Yield applicable to Money Market accounts depends on the balance tier set forth above. Once a balance tier is met, the Dividend Rate and Annual Percentage Yield for that balance range will apply to the full balance in the account while at that range.
- 2. Nature of Dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.
- 3. Dividend Compounding and Crediting.** The compounding and crediting of dividends and dividend period applicable to each account are set forth above. The Dividend Period is the period of time at the end of which an account earns dividend credit. The Dividend Period begins on the first calendar day of the month and ends on the last calendar day of the month.
- 4. Accrual of Dividends.** Dividends will begin to accrue on noncash deposits (e.g., checks) on the business day you make the deposit to your account. For all Dividend-bearing accounts except Money Market, if you close your account before accrued dividends are credited; accrued dividends will not be paid. For Money Market accounts, if you close your account before accrued dividends are credited, accrued dividends will be paid.
- 5. Balance Information.** The minimum balance requirements applicable to each account are set forth above. For Dividend-bearing accounts except Youth and Goal Saver, there is a minimum balance required to obtain the Annual Percentage yield for the dividend period. If the minimum balance is not met, you will not earn the stated Annual Percentage Yield. Dividends are calculated by applying a periodic rate to the average daily balance in the account for the period. The average daily balance is determined by adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period.

Fees Applicable to All Accounts		Other Account Fees
